## Board Policies

### Board Policies Summary

Effective leadership requires that a Board of Directors provide the organization's vision. To do so, the Board must first have a comprehensive vision of its responsibilities. The CWC P.G. Co.'s governance model emphasizes values, vision, and strategy, and empowers the Board, its committees, and the Executive Director through the creation and regular revision of the Board Policy Manual. The manual reflects the kind of disciplined thinking the Board wants to practice in terms of where responsibility for particular issues and policy decisions belong.

Purpose: This manual is designed to help the Board approach decisions from the perspective of its own previously established standards, values, and expectations by:

- Elevating efficiency by having all ongoing Board policies in one place
- Quickly orienting new Board members to current policies
- Eliminating redundant or conflicting policies
- Making reviews of current policy easier when considering new issues
- Providing clear, proactive policies to guide the Executive Director and staff, as well as Board officers, members, and committees

The Board decides the subject matter that merits policy creation, and the level of detail it will undertake in developing them. Its policies fit into four categories: Ends, Executive Limitations, Governance Process, and Board-Management Delegation.<sup>1</sup>

**Figure 1: Four categories of policies**

<sup>1</sup> The policies in this manual were written using the following as a reference: *Reinventing Your Board: A Step-by-Step Guide to Implementing Policy Governance* by John Carver and Miriam Mayhew Carver (revised edition, Jossey-Bass, 2006).

## Ends

The Ends concept — unique to the Policy Governance model — is a very special type of goal, one that designates the results for which the organization exists, the recipients or beneficiaries of those results, and the worth of the results.

## Executive Limitations

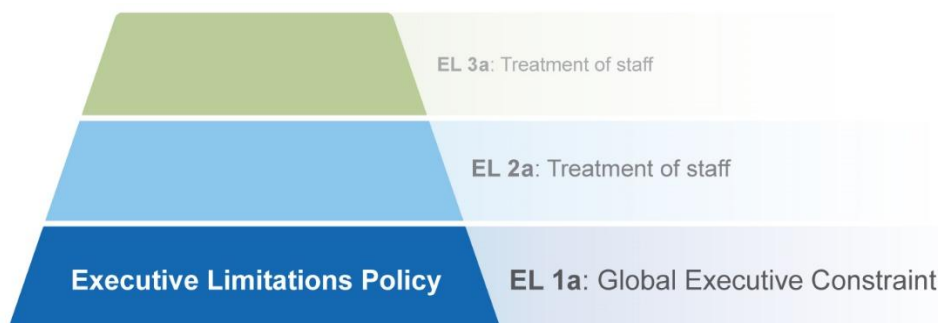

In Executive Limitations policies, the Board establishes the boundaries of acceptability within which staff methods and activities can responsibly be left to staff. These policies limit the means by which ends shall be achieved. The Board's role is one of boundary-setting — specifying in writing which staff means would be unacceptable, not approvable, or off-limits. By establishing clear boundaries, the Board provides an environment that facilitates staff creativity and encourages action. This key method of means constraint enables a Board to govern with fewer pages of pronouncements, less dabbling in details of implementation, and greater accountability.

## Governance Process

In Governance Process policies, the Board determines its philosophy, its accountability, and the specifics of its role. Except for what belongs in bylaws, these categories of Board policy contain everything the Board chooses to articulate about values and perspectives that underline all organizational decisions, activities, practices, budgets, and goals.

## Board-Management Delegation

Board-Management Delegation policies clarify the manner in which the Board delegates authority and how it evaluates performance relative to the Ends and Executive Limitations policies.

**Figure 2:** Broader to narrower policies

The Board formulates policy by determining the broadest values before progressing to more narrow ones. Policy values come in sizes: large values contain ranges within which smaller ones occur, like a nested set of bowls. The nested nature of Board policies reflects the discipline of the Board's determination of governing values. A Board establishes control over large issues with broad policies and subsequently decides how much further to detail them. Then it delegates further definition to someone else, fully empowering them to do so, and accepts any reasonable interpretation of its policies. For example, Policy EL 1 is broader than policy EL 2a, and EL 2a is broader than policy EL 3a. The Board continues to draft more specific policies within the broader policy until the Board is willing to accept any reasonable interpretation of the most specific policy.

## Governance Process Policies

### 3.4.1 Foundational Governance Process

<b>Date Last Approved:</b> May 20, 2025	<b>Date Last Reviewed:</b> May 20, 2025
---	---

**GP 1:** The purpose of the Board, on behalf of the CWC P.G. Co., is to see to it that the CWC PCN achieves appropriate results for its physician members and its patient population at an appropriate cost and avoids unacceptable actions and situations (as prohibited in Executive Limitations policies). In creating and diligently applying the provisions of this policy, the Board’s objective is to ensure that the Board and Management work effectively together, in an ethical and legal manner, to better promote the interests of the CWC PCN and its stakeholders.

### 3.4.2 Governing Style

<b>Date Last Approved:</b> March 19, 2024	<b>Date Last Reviewed:</b> March 19, 2024
---	---

**GP 2a:** The Board will govern lawfully, observing the principles of the Results Oriented Policy Governance model, with an emphasis on:

1. Outward vision rather than an internal preoccupation.
2. Encouragement of diversity in viewpoints.
3. Strategic leadership more than administrative detail.
4. Clear distinction between the Board and Executive Director roles.
5. Collective rather than individual decisions.
6. Future rather than past or present.
7. Proactivity rather than reactivity.

**GP 3a:** Accordingly,

1. The Board will cultivate a sense of group responsibility. The Board, not the staff, will be responsible for excellence in governing.

2. The Board will not use the expertise of individual Board members to substitute for the judgement of the Board, although the expertise of individual members may be used to enhance the understanding of the entire Board.
3. The Board will direct, control, and inspire the organization through the careful establishment of written policies reflecting the Board's values and perspectives.
4. The Board's major policy focus will be on the internal long-term impacts on the membership and its patient population, and not on the administrative or programmatic means of attaining those long-term impacts.
5. The Board will enforce upon itself whatever discipline is needed to govern with excellence. Discipline will apply to matters such as attendance, preparation for meetings, policy-making principles, respect of roles, and ensuring a continuance of governance capability. Although the Board can change its governance process policies at any time, it will rigorously observe those currently in force.
6. Continual Board development will include orientation of new Board members in the Board's governance process and periodic Board discussion of governance process improvement.
7. The Board will allow no Officer, individual or committee of the Board to hinder or be an excuse for not fulfilling Board obligations, as outlined in the Board Code of Conduct.
8. The Board will continually monitor and discuss the performance of all Board members to ensure alignment with organizational policies, processes, and standards.

### 3.4.3 Role of the Board

<b>Date Last Approved:</b> March 19, 2024	<b>Date Last Reviewed:</b> March 19, 2024
---	---

**GP 2b:** Specific job outputs of the Board, as an informed agent of the membership, are those that ensure appropriate organizational performance in accordance with the CWC P.G. Co.'s Articles of Association.

**GP 3b:** Accordingly, the Board will provide:

1. Authoritative linkages between the membership and the organization.
2. Written governing policies that realistically address the broadest level of all organizational decisions and situations.
  - a. Ends: Organizational impacts, benefits, outcomes, recipients, beneficiaries and impacted groups and their relative worth — in cost or priority.
  - b. Executive Limitations: Constraints on executive authority that establish the prudence and ethics boundaries within which all executive activity and decisions must take place.
  - c. Governance Process: Specification of how the Board conceives, carries out and monitors its own tasks.
  - d. Board-Management Delegation: How power is delegated, and its proper use monitored; the Executive Director's role, authority, and accountability.
3. Assurance of successful organizational performance on Ends and Executive Limitations.
4. Demonstrated leadership in the active engagement of the membership around adherence to the organizational aims.
5. Recommendations for the approval of the business plan, business plan amendments, annual budgets, and reports intended for submission to Alberta Primary and Preventative Health Services, to be periodically presented to the Joint Venture Governance Committee.

6. Championship of the organization's recruitment, retention, and support of physicians in the CWC PCN.
7. Identification of the principal risks to the activities and affairs of the CWC PCN and oversight of the implementation of appropriate systems and processes to manage those risks.

#### 3.4.4 Cyclical Board Calendar/Agenda Planning

<b>Date Last Approved:</b> March 19, 2024	<b>Date Last Reviewed:</b> March 19, 2024
---	---

**GP 2c:** To accomplish its duties consistent with Board policies, the Board will follow a Board calendar that completes a re-exploration of Ends policies regularly and continually improves Board performance through Board education, input, and deliberation.

**GP 3c:** Accordingly,

1. The cyclical Board calendar will conclude each year on the last day of the month in which the Annual General Meeting is held, so that administrative planning and budgeting can be based on accomplishing one-year segments of the Board's most recent statement of long-term ends and will commence following the Annual General Meeting with the new Board.
2. The Board will review the new Board calendar developed by the Board, Executive Director, and Corporate Governance team at the first meeting following the Annual General Meeting.
3. Throughout the year, the Board will acknowledge the importance of discerning routine and non-controversial matters that can be appropriately consolidated under the consent agenda and will attend to such matters as expeditiously as possible.
4. The performance review of the Executive Director and Medical Director will be conducted annually.
5. The Board will hold a minimum of eight Board meetings per year, with the option of additional Board meetings to be called by the Chair at their discretion.

#### 3.4.5 Board Chair's Role

<b>Date Last Approved:</b> June 25, 2024	<b>Date Last Reviewed:</b> June 25, 2024
--	--

**GP 2d:** The Board Chair is the Chief Governing Officer of the Board, a specially empowered member of the Board who assures the integrity of the Board's process with the support of the Executive Director and Corporate Governance team, and occasionally represents the Board to outside parties.

**GP 3d:** Accordingly,

1. The assigned result of the Board Chair's job is that the Board behaves consistently with its own rules and those legitimately imposed upon it from outside the organization, relying on the Corporate Governance team to promote positive adherence to these rules.
  - a. Meeting discussion content will include only those issues which, according to Board policy, clearly belong to the Board to decide or to monitor.
  - b. Information that is neither for monitoring performance nor for Board decisions will be minimized and noted as such.

4. The Executive Director reports to the full Board and is not required to seek approval from Board committees unless explicitly directed by the Board.

**BMD 2a:** Only officially passed motions of the Board are binding on the Executive Director.

**BMD 3a:** Accordingly,

1. Decisions or instructions of individual Board members, Officers or committees are not binding on the Executive Director except in rare instances when the Board has specifically authorized such exercise of authority.
2. In the case of Board members or committees requesting information or assistance without Board authorization, the Executive Director can refuse such requests that require, in the Executive Director's opinion, a substantial amount of staff time or funds or are deemed to be disruptive.

### 3.5.3 Accountability of the Executive Director

<b>Date Last Approved:</b> March 18, 2025	<b>Date Last Reviewed:</b> March 18, 2025

**BMD 2b:** The Executive Director is the Board's only link to operational achievements and conduct, so that all authority and accountability of staff, as far as the Board is concerned, are the authority and accountability of the Executive Director.

**BMD 3b:** Accordingly,

1. The Board will never give instructions to individuals who report directly or indirectly to the Executive Director, with the exception of the Manager of Corporate Governance and the Director of Human Resources and Corporate Governance, as required.
2. The Board will not evaluate, formally or informally, any staff other than the Executive Director.
3. The Board will view Executive Director performance as identical to organizational performance so that organizational accomplishments of Board-stated ends and avoidance of Board-proscribed means will be viewed as successful Executive Director performance.

### 3.5.4 Delegation to the Executive Director

<b>Date Last Approved:</b> March 18, 2025	<b>Date Last Reviewed:</b> March 18, 2025

**BMD 2c:** The Board will instruct the Executive Director through written policies that prescribe the organizational ends to be achieved, and prescribe organizational situations and actions to be avoided, allowing the Executive Director to use any reasonable interpretation of these policies.

**BMD 3c:** Accordingly,

1. The Board will develop policies instructing the Executive Director to achieve specified results, for specified recipients, at a specified cost. These policies will be developed systematically from the broadest, most general level to more defined levels, and will be called Ends policies. All issues that are not ends issues as defined here are means issues.
2. The Board will develop policies that limit the latitude the Executive Director may exercise in choosing the organizational means. These limiting policies will describe those practices, activities, decisions, and circumstances that would be unacceptable to the Board even if they were to be effective. Policies will be developed systematically from the broadest, most general level to more defined levels, and they will be called Executive Limitations policies. The Board will only prescribe organizational means to the Executive Director under exceptional circumstances.
3. As long as the Executive Director uses any reasonable interpretation of the Board's Ends and Executive Limitations policies, the Executive Director is authorized to establish all further policies, make all decisions, take all actions, establish all practices and develop all activities. Such decisions of the Executive Director shall have full force and authority as if decided by the Board.
4. The Board may change its Ends and Executive Limitations policies, thereby shifting the boundary between Board and Executive domains. By doing so, the Board changes the latitude of choice given to the Executive Director; as long as any particular delegation is in place, the Board will respect and support the Executive Director's choices.
5. The Board authorizes the Executive Director to be a signing authority on financial, operational, and administrative transactions on behalf of the Calgary West Central P.G. Co. in accordance with the Executive Limitations 3.3.4 Financial Conditions and Activities Policy.

**BMD 4c:** Accordingly,

1. The duties of Secretary of the Board have been delegated to the Executive Director who then discharges this responsibility to the Corporate Governance team.

**BMD 2d:** The Executive Director's job performance will be systematically and rigorously monitored based solely on the only expected Executive Director job outputs: achieving organizational outcomes defined in the Board's Ends policies and operating within the boundaries set by the Board's Executive Limitations policies.

**BMD 3d:** Accordingly,

1. Monitoring is simply to determine the degree to which Board policies are being met. Information that does not do this will not be considered to be monitoring information.
2. The Board will acquire monitoring information by one or more of three methods:
  - a. Internal report, in which the Executive Director discloses interpretations and information to the Board.
  - c. External report, in which an external, disinterested third party selected by the Board assesses compliance with Board policies.
  - d. Direct Board inspection, in which a designated member or members of the Board assesses compliance with the appropriate policy criteria.
3. In all cases, the Board will assess whether the Executive Director's interpretation is reasonable and whether the data provided demonstrates accomplishment of the interpretation.
4. The standard for compliance will be any reasonable Executive Director interpretation of the Board policy being monitored. The Board is the final arbiter of reasonableness but will always judge with a "reasonable person" test rather than with interpretations favoured by individual Board members or by the Board as a whole.
5. All policies that instruct the Executive Director will be monitored at a frequency and by a method chosen by the Board. The Board can monitor any policy at any time, by any method, but will ordinarily depend on a routine schedule.
